DISCLAIMER OF LIABILITY

This safeguard represents an ideal that has blossomed for a long time among the longings of divine aspiration of a dreamer, who could be yourself, and who wishes to precipitate a renewed life of peace and fraternity among all beings, i.e., for the oppressed and for the oppressors, through the declaration of the supreme right of all individuals to their independence and their liberation from local, world and cosmic tyranny and whose essence no one can invalidate or overcome, even if this document is destroyed, when it is decreed by the sincere Invocation to the Higher Self of the signer of the decree that is presented later.

Furthermore, each individual, authority, institution, organization or any group of individuals that still protects that inalienable right of humanity will always be respected and recognized.

You, as a reader, are invited to share this passport as it is or adapted to your convictions, in which case, I only hope that you improve it by making sure that its intrinsic validity is invulnerable, like that of this certificate, and that you subscribe to the highest ideals that you are capable of conceiving and that these are as healthy and just as possible for every individual, for all kinds of life and for all things.

**May Love, Wisdom and Creative
Power be the Triune Light that
guides us forever!**

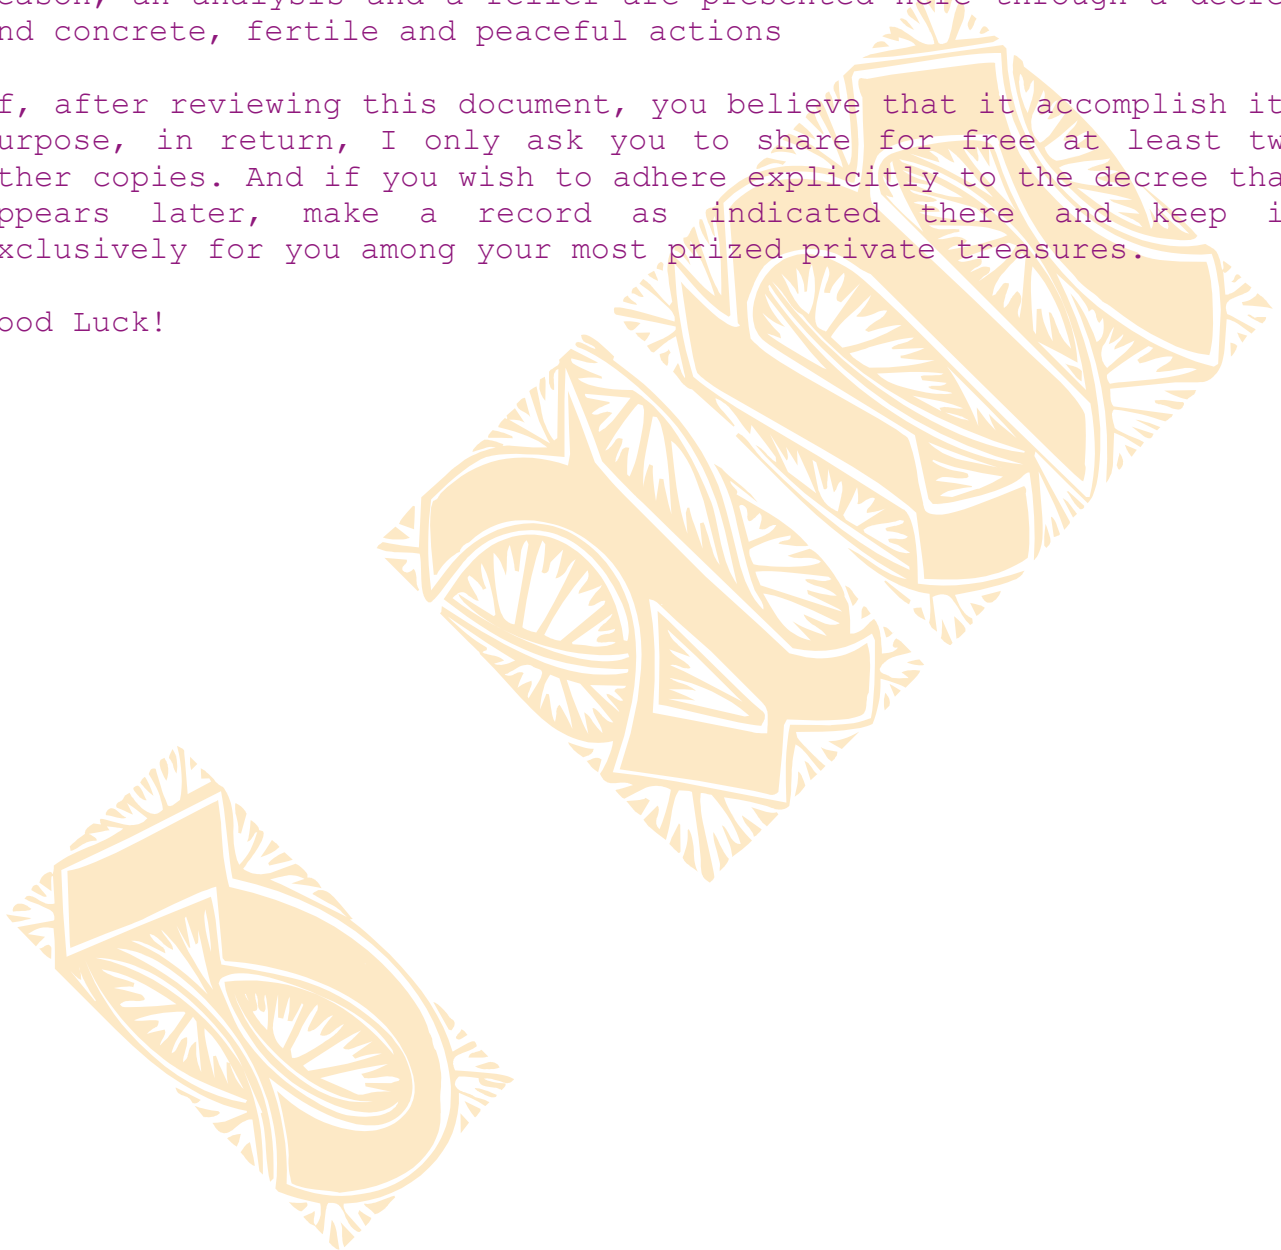

PREFACE

I do not know your ideals, but if this document has to be useful to you, I hope that at least you will be able to live harmoniously with any being that respects you, no matter who, putting aside all prejudices, without divisions, be it national, racial or whatever.

Here is presented a universal perspective, not religious nor scientific, but philosophical and common sense, which recognizes, accepts and protects the natural tendency of the inalienable right of all beings of the Cosmos to life, freedom and the pursuit of happiness. That tendency is not inhibited but contained and accumulated in a proportion identical to our disunity, for that reason, an analysis and a relief are presented here through a decree and concrete, fertile and peaceful actions

If, after reviewing this document, you believe that it accomplish its purpose, in return, I only ask you to share for free at least two other copies. And if you wish to adhere explicitly to the decree that appears later, make a record as indicated there and keep it exclusively for you among your most prized private treasures.

Good Luck!

INTRODUCTION

We are not divided by finances but fraud, nor education but indoctrination, nor lineages but racism, nor cultures but ignorance, nor religions but affronts; neither ideals but coercion and moral and ethical subversion; nor policies but corruption, nor nations but enslavement, nor love but hate.

Then things do not divide us, however, what separates us is our outer immoral and anti-ethical distortion, our crisis of conscience, and conflict is generated; that is why all these divisions must be transmuted on Units, this means: the nations on the planet Earth and then the Cosmos; the finances on the gold, the silver, etc.; the lineages on the human family, the cultures on the super-culture, the policies on the human rights, the religions on the mutual respect; the education on the unbiased open source science; the morals and the ethics on the rule: "treat others as you wish to be treated"; and above all things, the hate must be transformed on the love.

In short, all our attitudes must be saturated or even over-saturated with our inner moral and ethical balance and above all: with love to the totality!

If you already are doing something to renew the world, I invite you to consider this as well. If not, and you wonder what you can do, well here's something! In any case, improve this document, transform it; or take it as it is. Then if you continue, I wish to recommend that you merge your common sense with your love to the natural tendency of the life, the freedom and the pursuit of happiness of all beings.

And remember, we never resort to violence or arbitrariness but we always invoke harmonious common sense and participate in concrete fertile and peaceful actions. We are absolutely genuine in our actions, but we never infiltrate institutions or other organizations, although we certainly do not wait for their corrupt members to protect and restore our rights, so we always dismiss the offenders by peacefully disregarding their authority and immediately appoint new public servants or chief executive officers or whatever should be their function, as the case may be. These are elected by a non-secret popular vote whose list is accessible in "real time" for verification and ratification by all voters, is alien to any institution or transgressing organization and involves a scientific scrutiny of candidates vaccinated against moral and ethical debasement. The elect will have the authority to operate from their home, office or other facilities in case the usurped places have not yet been evicted. And the debugging of the system starts out from yourself, then your house, your block or neighbourhood; your municipality and so on, even to cover your nation and then the world and beyond! Because if you react and renew yourself then you can ask the same to others. And when plenty of us refine ourselves and take action and we all do the same and understand that it benefit us all, even those who wish to redeem themselves, then, and only then, we will achieve a more civilized world, where life, freedom and happiness abound!

DECREE OF
COSMIC
INDEPENDENCE
AND FREEDOM

Through the ability to
conceive and command with
which endow me the creator
of all,

U AM

the resurrection and the life
of the precipitation of the
irrefutable and evident in
itself reality which is
described in the following
declarations:

We all, human beings, are Sons in Spirit of the Creator of All and therefore we are Brothers of the same and grand Cosmic family that we can choose to love exclusively God, because in doing so we love the totality, the Cosmos, our fellow human beings, all way of life, and all things.

By being born in a world, i.e., in one of our sidereal houses, we receive the inalienable right to life, freedom and the pursuit of happiness, i.e., to our Inalienable and Natural Original Privileges, provided that as we grow and mature we do not threaten or damage that same right belonging to the other inhabitants of the Cosmos.

If these privileges are diminished or endangered by Brothers who chose another path, the rest of us have the just prerogative and the absolute power to restore our inheritance in the way that best resembles our wisdom, love and power, all three of them collective.

As local and even worldwide events or beyond have excessively precipitated insecurity, greatly curtailed freedom and frustrated without mercy the search for happiness of the great majority of our Brothers in at least this world, then as a Spiritual Son of the Creator of All, just as you are too,

D AM

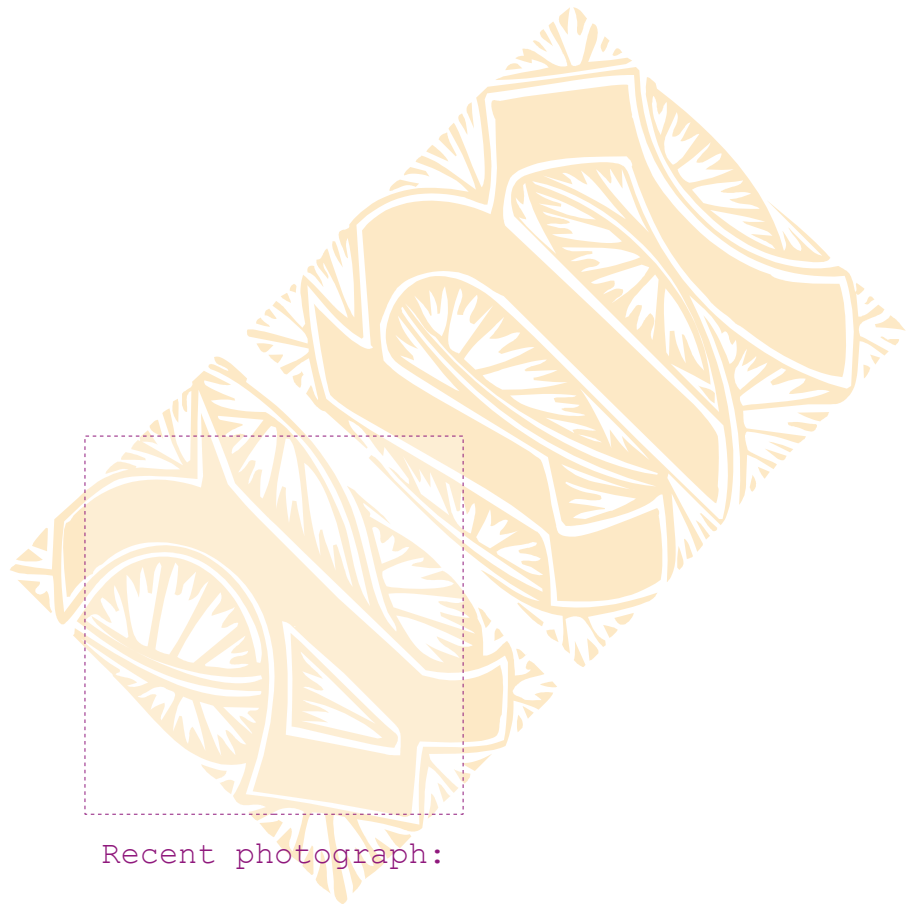

**Independent and Free of the
infringers of the Cosmos;**

D AM

**the immediate restoration of
our Inalienable and Natural
Original Privileges**

As proof of my Invincible adherence with all my mind, with all my heart and with all my Spirit to this decree, written in my current sidereal house, the planet Earth, I annex the statements as well as the immediate and upcoming actions that I will carry out and that I will adapt and update as they serve their purpose better; I choose a Cosmic name with which I wish to be known at present, and I record the following:

Full name:

**STATEMENTS AS WELL AS ACTIONS IMMEDIATE AND NEXT THAT ARE ATTACHED TO
MY DECREE OF COSMIC INDEPENDENCE AND FREEDOM**

I approve the existence and respect of institutions, governments, industries, businesses, creeds, etc., provided they are represented by people with the highest moral, ethical and professional quality, all three of them scientifically verifiable, to ensure their administration without corrupting, coercing, subverting moral and ethical values; indoctrinating, etc., that is, the best way to preserve our Inalienable and Natural Original Privileges. Therefore, I fervently desire the elimination of the debasement in all contexts in order to reconstruct them with suitable individuals for the position, in accordance with the qualities mentioned above. Then to counteract and annul all those who participate in any form of threat to our Inalienable and Natural Original Privileges and through my Invincible Authority as a Spiritual Son of the Creator of All:

1. I declare vulnerable to the sanctions of the Cosmic Passport to every individual, institution, government, industry, business, creed, etc., that threatens or diminishes our Inalienable and Natural Original Privileges.
2. I dismiss immediately to all staff in financial, governmental, civil or any other activity that threaten or diminish our Inalienable and Natural Original Privileges such as the life, the freedom and the pursuit of happiness. And the offenders do not need to give up by themselves or dislodge the facilities that they usurp as a consequence of their iniquity, because I deprive them of all power from now on, invalidating all their functions by not recognizing any more them as authority in the corresponding context, whatever it may be, but I do recognize the authority and power of all those who defend our Inalienable and Natural Original Privileges.
3. Gradually I first organize my neighbours to do all the same and then we extend to embrace the world, to say the least, starting from the beginning to rebuild institutions, governments, industries, businesses, etc., to be able to manage our life and freedom in a healthy and effective way so that we can peacefully flourish anywhere in our borderless and sidereal house, the planet Earth and as well in any part of the Cosmos, and procure our happiness. This includes:
 - 3.1. To penalize strongly all kinds of corruption, coercion, moral and ethical subversion, indoctrination, etc., including of course all economic speculation and all usury, all of which is scientifically verifiable by an exemplary system of the highest moral and ethical quality and which is permanently supervised as much as possible by the great people of the Cosmos and with absolute authority to correct and update it.
 - 3.2. To comprehend that any sanction, however serious, respects the life of the offender, nonetheless, the freedom of the delinquent is conditioned proportionally to the seriousness of the offence, and in any case the transgressor is subject to non-violent and compassionate re-education treatment under scientific supervision, and is able to gain freedom comparatively to recovery.
 - 3.3. To appoint new broad and local public servants and chief executive officers of all other activities, all with a suitable profession and experience for the corresponding activity and with the highest moral and ethical quality available and all three of them scientifically verifiable.

- 3.4. To restore the financial system through gold, silver, etc., as exclusive currency eradicating the bank fraud of loans without funds and with interest.
- 3.5. To declassify all sciences, technologies, mathematics, patents, etc., and to eliminate the planned obsolescence and the compartmentalization of all kind to force the industry, the businesses, etc., to progress and reinvigorate with a creativity that benefits us all and allows us to dedicate less time to work and more to inner improvement and recreation.
- 3.6. To establish as a threat to our Inalienable and Natural Original Privileges all kinds of corruption, coercion, moral and ethical subversion; indoctrination, etc., directed at the progeny and others; be it religion, politics, science or whatever. We can all be documented about the true history of humanity and its repertoire of documents of all kinds, but our beliefs must be the result of our own inner nature, which, in its pure form, infallibly protects our Inalienable and Natural Original Privileges. For this reason, the educational system must be reconstructed by eliminating all kinds of corruption, coercion, moral and ethical subversion; indoctrination, etc., in all that is taught and thus allowing the true individual and collective integral improvement.
4. I permanently review all the above, enriching it, updating it and improving it in order to always preserve our Inalienable and Natural Original Privileges.
